 - Cabin Fever – 1.5 km

SKIER RESPONSIBILITY CODE

Snowsports can be enjoyed in many ways. At ski areas, you may see people using alpine, snowboard, telemark, cross country and other specialized ski equipment, such as that used by disabled or other skiers. Regardless of how you decide to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing that common sense and personal awareness can help reduce. Observe the code listed below and share with other skiers the responsibility for a great skiing experience.

- Always stay in control, and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them.
- You must not stop where you obstruct a trail, or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.
- This is a partial list.

KNOW THE CODE. IT'S YOUR RESPONSIBILITY.

Use Facilities at Your Own Risk

Skiers and snowboarders assume the inherent risks of skiing and snowboarding. Therefore, Solitude requires that participants recognize the dangers or conditions which are an integral part of the sports of skiing, snowboarding and ski jumping, including but not limited to: changing weather conditions; variations or steepness in terrain; snow or ice conditions; surface or subsurface conditions such as bare spots, forest growth, rocks, stumps, impact with lift towers and other structures and their components; collision with other skiers; and a skier's failure to ski or jump within the skier's own ability. If you cannot accept the inherent risks of the sport, please do not ski in this area.
